HydraFacial™ Liquid Microdermabrasion Pre and Post Care

PRE-TREATMENT INSTRUCTIONS
1. Allergy to aspirin is a contraindication for the Beta-hd serum only. If you have an aspirin allergy, please inform your medical provider.
2. Sun exposure and/or usage of a tanning bed must be avoided for 2-7 days prior to and 1 week after the treatment. Sun exposure within 1 week after treatment (natural sunlight or artificial tanning booth) may result in hypopigmentation (white spots) or hyperpigmentation (dark spots) that may not clear for several months or may even be permanent.
3. Accutane and any other photosensitizing medication should be discontinued for a period of at least 12 months prior to receiving treatment and should not be used during your course of treatment.
4. Avoid resurfacing products such as Retin-A®, Renova®, Differin® (Adapalene 0.1%), Tazorac®, Alpha-Hydroxy Acid (AHA’s) or Beta-Hydroxy Acid (BHA’s), and any Retinol Products 3-7 days prior to treatment.
5. Waxing and/or use of chemical depilatories must be avoided for 1-2 weeks prior and after the treatment. Shaving is allowed 24-48 hours after treatment as long as there is no skin irritation.
6. You may not be pregnant or nursing (for use of Beta-hd serum only)
7. Open wounds, cuts, abrasions, rashes, and/or any skin irritation present in the treatment area are a contraindication for treatment. If you have currently have one of these skin conditions present, please inform your medical provider.
8. Active Cold Sore or Herpes outbreak is a contraindication for treatment.
9. During the course of your treatments, notify our staff of any changes to your medical history, health status, or personal activities that may be relevant to your treatment.

DURING TREATMENT INSTRUCTIONS
1. During the course of your treatment your feedback is crucial in order for us to determine the proper and most effective treatment protocols for you. Our staff is always available to respond to any questions, concerns, or comments you may have.

POST-TREATMENT INSTRUCTIONS
1. Treat the skin gently, as if you had sunburn, for the first 48 hours.
2. Skin may have a pink or flushed appearance which usually dissipates within a few hours.
3. Avoid exercise that causes sweating and avoid sources of excess heat such as Jacuzzi, sauna, or steam baths if any skin irritation exists.
4. Avoid resurfacing products such as Retin-A®, Renova®, Differin® (Adapalene 0.1%), Tazorac®, Alpha-Hydroxy Acid (AHA’s) or Beta-Hydroxy Acid (BHA’s), and any Retinol Products 3-7 days after treatment.
5. Waxing and/or use of chemical depilatories must be avoided for 1-2 weeks after the treatment. Shaving is allowed 24-48 hours after treatment as long as there is no skin irritation.
6. Follow this skin care regimen for 1-2 days after the treatment:
   AM: 1. Cleanse with a mild Cleanser such as: SM Sensitive Skin Cleanser or IS Cleansing Complex.
       2. Apply an Antioxidant Serum such as: SM TNS Essential Serum or IS Super Serum.
       3. Apply a moisturizer or hydration gel such as: SM Dermal Repair Cream, SM Ultra Sheer Moisturizer, IS Hydra-Cool Serum, or IS Pro-Heal Serum.
       4. Apply SM Environmental Defense SPF30+ and reapply throughout the day as needed
   PM: 1. Cleanse with a mild Cleanser such as: SM Sensitive Skin Cleanser or IS Cleansing Complex.
       2. Apply a moisturizer or hydration gel such as: SM Dermal Repair Cream, SM Ultra Sheer Moisturizer, IS Hydra-Cool Serum, or IS Pro-Heal Serum.
7. After 1-2 days or if there is no sensitivity you may return to your normal skin care regimen.
8. Makeup can be applied immediately after the treatment if desired.
9. For best results and efficacy, we recommend a series of 6 treatments administered at 2 week intervals. You may notice immediate as well as longer term improvements in your skin.
